Material properties of PPSF request

General properties done by ASTM

	PPSF	English Units	Test Method
Tensile Strength, Type 1, 0.125	8,000	psi	ASTM D638
Tensile Modulus, Type 1, 0.125	300,000	psi	ASTM D638
Tensile Elongation, Type 1, 0.125	3	%	ASTM D638
Flexural Strength	15,900	psi	ASTM D790
Flexural Modulus	320,000	psi	ASTM D790
IZOD Impact, notched (73 C)	1.1	Ft-lb/in	ASTM 256
HDT, 264 psi	189	deg C	ASTM D648
Specific Gravity	1.28		

Of the PPSF test's results requested by other accounts, we have all but the following three:

- Un-notched Impact
- Hardness (shore D or other)
- Softening Point

It would help me to understand the value and importance to each of the properties that have not been tested and how important it is for SSYS to develop the results.

Thank you for your time and consideration in this matter. Please feel free to contact me with any questions you may have.
